ABOUT ME

I'm a Full Stack developer (backend focused) with experience working with Node.JS. I'm driven by curiosity, enjoy learning continuously, and I'm looking to grow within a team where I can contribute, and learn from more experienced developers.

EXPERIENCE

IT support   *Argentina*
Self employed   *2018 - present*
- Delivered hands-on IT support to individual clients, handling preventive and corrective maintenance of PCs and peripherals, installing and configuring operating systems and essential software, setting up and maintaining wired and Wi-Fi networks, advising on hardware purchases and cost estimates, and providing both on-site and remote user support.

SKILLS

Skills: NodeJS +Express, Typescript, React, Jest, SQL,Docker, GIT, GitHub

PROJECTS

Clinex   2025

Distributed clinical management system with multi-site support, designed to optimize patient, appointment, and professional management as an exercise in clean architecture and backend best practices.

Kinecandia   2024

Landing page for a kinesiologist and physiatrist, facilitating contact with potential patients and providing a clear presentation of services, profile, and testimonials.

EDUCATION

FCEQyN - UNAM, Argentina   *2016-2021*
Bachelor's in Information Systems
